

## **PRESS ANNOUNCEMENT**

### **AerCap sign 2 year agreement with Waviatech for records scanning services**

**London, February 12<sup>th</sup> 2008**

AerCap of the Netherlands, have signed a 2 year agreement with Waviatech, the UK-based provider of the Stream-Digital Aircraft Records tool. The agreement covers the scanning of the historical records for its fleet of aircraft that will be transitioning between leases with the data being presented in the Stream format.

Commenting on the agreement, Godfrey Ryan, Director, Sales and Marketing for Waviatech said “we are proud to align ourselves with AerCap, a significant player in the aircraft leasing market. It’s testament to the work of our staff and the functionality of Stream that AerCap have decided to extend their relationship with us”

“Stream is currently being used by leading airlines and lessors to support ongoing management of records, aircraft returns, transitions, asset protection and re-marketing activities” continued Ryan.

### **About AerCap**

AerCap is an integrated global aviation company with a leading market position in aircraft and engine leasing, trading and parts sales. AerCap also provides aircraft management services and performs aircraft and engine maintenance, repair and overhaul services and aircraft disassemblies through its certified repair stations. AerCap’s portfolio consists of 317 aircraft and 69 engines that are either owned, on order, under contract or letter of intent, or managed. AerCap is headquartered in The Netherlands and has offices in Ireland, the United States, China and the United Kingdom.

### **About Waviatech**

Our mission, with Stream, is to define the global standard for digital aircraft records”

Stream was developed by Waviatech to assist airlines and aircraft leasing companies in managing scanned historical aircraft and engine records. Since 2002 Stream has established itself by delivering high-quality, easy-to-retrieve and searchable digital records. Stream can be accessed on DVD, online or via a corporate network. Waviatech provides a number of services including a global records-scanning/processing service, aircraft technical records audits and aircraft inspection services.
